+61 0407 579 378

## PERSONAL SKILLS

Working within a team or solo, I thrive in a challenging environment and working to a deadline. My background in business, team management and entrepreneurial ventures gives me sharp focus to problem solve in the moment and come up with solutions. As a result I am confident in my ability to come up with unique ideas. I value quality output and professionalism and am extremely motivated to constantly develop my skills and grow professionally. I've been told by people I've worked with that I bring a sense of calm, clarity and stability to a studio environment, and have a good ear and intuition for what sounds good.
